

mRNA association with neuronal mitochondria

Research projects:

- Mitochondria as a general mRNA shuttle in axons
- Role of RNA binding proteins in association

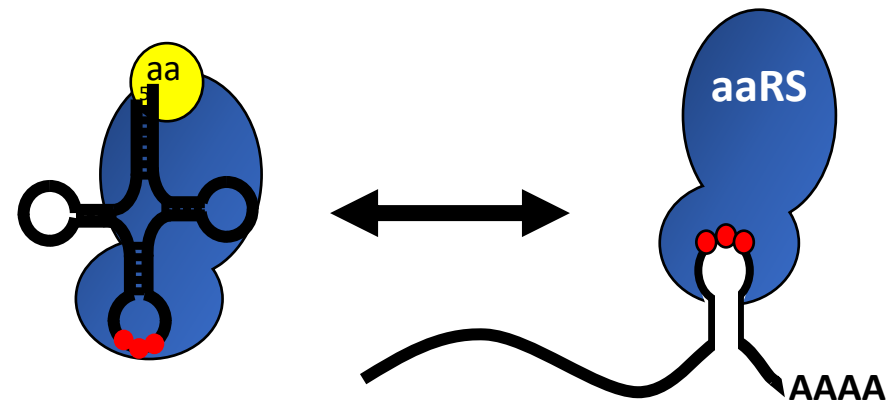

- Oknin-Vardi and Arava Y. Front. Cell Dev Biology 2019
- Cohen B. et al. BioRxiv 2021

Aminoacyl tRNA synthetases (aaRS) association with mRNA

Research projects:

- RNA structure and modifications as common denominator between RNAs
- Impact of aaRS binding on translation level
